

## People Track 1.5™ Visitor Management

Make sure everyone's  
-Safe -Secure -Accountable

### Tracking visitors, vendors and volunteers has never been more important.

Do you know everyone who enters and leaves your building, -when they arrived, -when they left -what they wanted? If required, could you look back on a day's, week's, or month's worth of data to determine exactly who entered your building, and why?

Now you can, with People Track 1.5™ Visitor Management. People Track is an easy-to-use visitor management solution. It's simple to set up and an ideal replacement for any outdated log books or manual system you may be using now.

### Even for the most inexperienced user, People Track software lets you quickly and easily:

- Scan and capture visitor information from driver's license at check-in
- Instantly create a visitor badge with photo
- Run a background check
- Classify each visitor
- Catalog who's being visited
- Note reason for visit
- Close the visit at check-out
- Provide a complete visit history report

**People Track**  
Eastview High School
